Virtual museums
PANORAMA TOUR

Solution suitable for web and tours done by user himself.

SOCIAL VIRTUAL MUSEUM

Solution for co-presence and suitable for virtual tours and presentations with a guide.

Virtual tour

The virtual tour is done with a series of 360 spherical panorama images with hotspots to navigate or open contextual content as images, videos or sounds. The environment can be a digital twin of the real or a competely reconstucted environment.
The experience is done by the user himself and is available and embeddable on a website.
